

Biomimetics Means God Invented It First

Date

Saturday, May 20th

9 – 10:30 am

Location

Willow Hills Baptist Church

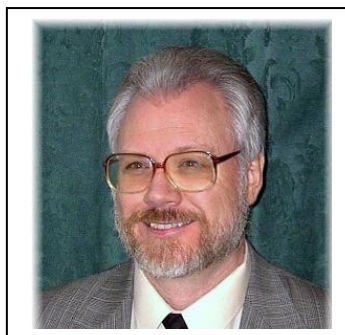

1071 Mogollon Rd,
Prescott, AZ 86301

This presentation expounds on the field of biomimicry where engineers and scientists look to the world of biology to see if certain designs and engineering solutions already exist and may be copied rather than having to figure out an engineering solution from scratch. We find that man is not the great inventor and innovator that he thinks he is. God invented many designs first but rarely gets the credit He deserves.

This meeting, as with all AzOSA meetings, is FREE!
